Dental Abstracts

ANNUAL INDEX

VOLUME 6, 1961

AMERICAN DENTAL ASSOCIATION
222 EAST SUPERIOR ST. CHICAGO 11, ILLINOIS

January pages 1-64
February pages 65-128
March pages 129-192
April pages 193-256
May pages 257-320
June pages 321-384
July pages 385-448
August pages 449-512
September pages 513-576
October pages 577-640
November pages 641-704
December pages 705-768

Dental Abstracts

ANNUAL INDEX

VOLUME 2, 1957

A

AERODONTALGIA

See Basic science—pathology; See also Air pressure

AFGHANISTAN

See Professional activities—dentistry around the world

AIR PRESSURE

Ott. Importance of dental care for military fliers 524
Szmyd. Oral surgery complications caused by flight 476

ALLERGY

Julian. Can periodontosis be caused by extrinsic allergies? 649
Kuck. Irritations of the oral mucosa caused by the addition of coloring matter to acrylic denture materials 635
Schubert. Allergy to synthetic resins, a problematical diagnosis 634

ANALGESIA

See Oral surgery—anesthesia and analgesia

ANATOMY

See Basic science—anatomy

ANESTHESIA

See Oral surgery—anesthesia and analgesia

ANOMALIES

Clayton. Congenital dental anomalies occurring in 3,557 children 482
Henriques Vaz. Dental coalescence 104
Schapira. Anodontia and aplasia: report of two clinical cases 727

ANTHROPOLOGY

See Basic science—anthropology

ANTIBIOTICS

See Armamentarium—therapeutics; See also Basic Science—pharmacology

ARMAMENTARIUM

EQUIPMENT

Banger. Clinical experience with the impression trays "Jescoform" and Jescoplast" 687
Barbero. Contact therapy. Physical concepts 680
Benkow. Adjustable universal film holder 679
Bjorlin. Measurement of skin dose and stray radiation by dental roentgenography 260
Clark. Radiographical duplication of radiographs 569
Etter. Radiation dose reduction by higher voltage dental roentgenography 133
Frank. Appraisal of preventive dentistry as viewed by the X-ray: musings of a roentgenologist 734
Gibson. Photographing dental casts 568
Grün. Ultraviolet rays and diethylene glycol in the disinfection of the air in medical and dental offices 597
Hielscher. New roentgenographic technic for practicing dentists 131
Hudson. Panoramic X-ray dental machine 440
Kivimäki. Roentgen ray diagnosis of cysts of the jaw with the use of contrast medium 259
Kobylanska. Ultrasonics in dentistry 328
Krosta. Progress in measuring and regulating technics 285
Leone. Device for standardizing X-ray techniques 259
Martinez Lavin. Sterilization in hot sand 597
Merrow. Examiners' ratings of color transparencies of clinical signs associated with vitamin deficiencies 596
Neill. Use of readily available refractory materials for the construction of dental casting crucibles 168
Neuhäuser. New "Kolpofot" photographic apparatus for use in dental practice 215
New lighting system in dental surgery 20
Ostrander. Are your syringes safe? 735
Patterson. Radiographic incrementation 133
Schaefer. Airdent unit 286
Schneier. Electrodiagnosis in diseases of the pulp 328
Schwarz. Teleroentgenography in orthodontics 583
Stephens. Air turbine handpiece motors 21
Szirmai. Recording of the functions of the masticatory muscles before dental restorations and speech therapy by the use of myotonometer and myograph 598

Via. Protection from X-ray radiation in the dental office 261
Weinberg. Cinefluorography: technical refinements 20
White. Planigraphy of the temporomandibular joint 583
Zirvas. Diagnosis of dental focal infection with the aid of infrared rays 569

INSTRUMENTS

Balters. Meba spring articulators 633
Bönigk. Broaches with nylon handles 73
Charbeneau. Evaluation of lubricants for dental handpieces and contra-angles 690
Crowley. Preliminary investigation of some basic problems of instrument sterilization 568
Foss. Sharpening periodontal instruments 22
Frostell. On sterilization by dry heat 455
Hartley. Cutting characteristics of dental burs as shown by high-speed photomicrography 323; Methods for evaluation of rotating diamond-abrasive dental instruments 596
Hayward. Use of elevators 683
Helmcke. Electron microscopy in evaluation of the anatomy of oral structures and in dental diagnosis 571
Henninger. Straight and right angle handpieces with ball bearings for dental practice 452
Henry. Influence of design factors on the performance of the inverted cone bur 286
Hielscher. Simple and practical instrument for observing X-ray films 73
Kallay. "Aerognathodilatator" 72
Kankowsky. Cleaning of syringes 329
Kierse. Influence of different sterilization methods on the sharpness of dental instruments 218
Norlen. Air-driven dental handpiece with manual speed control 595
Ogden. Central needle sterilization 329
Ostner. Electronically controlled unit combining engine and handpieces for dental practice 452
Rigas. Some effects of coolants on the mechanism of cutting with dental burs 494
Roemer. Sterilization of instruments and drug solutions 76
Schug-Kösters. Sterilization of endodontic instruments with gaseous formaldehyde 217
Simsa. Integral asepsis in dental treatment of patients with tuberculosis 690
Stewart. Diamond instruments designed for deciduous molar cavity preparation 83
Swenson. Sharpening of prophylactic instruments 451
Vashkov. Recent research into disinfection and sterilization 600

MATERIALS

Acuña Ortiz. New conceptions on abrasive and polishing substances 170
Bausch. New kind of articulating paper 751
Brauer. Accelerating effect of amines on polymerization of methyl methacrylate 172
Buonocore. Report on a resin composition capable of bonding to human dentin surfaces 327
Craddock. Practical notes on dental materials: expanding artificial stones 453
Docking. Re-evaluation of self-hardening resins 453
Düringer. Gallium as a substitute for mercury 326
Earnshaw. Cobalt-chromium alloys in dentistry 172
Hollenback. Study of the physical properties of elastic impression materials and stones 688
Johnson. Gold alloys for casting dentures: an investigation of some mechanical properties 570
Lastra Martinez. Comparative study of acrylic and porcelain jacket crowns 76
Margetis. Changes in agar-agar type duplicating material and agar-agar on heating and storage 752
Morrant. Symposium on acrylic resin filling materials 216
Münch. Gutta-percha 21
Myers. Some clinical and physical characteristics of the rubber base impression materials 570
Pfeiffer. Clinical problems in the use of alginate hydrocolloid 82
Skinner. Condensation of amalgam with ultrasonic vibration—a progress report 752
Smith. Alloys of gallium with powdered metals as possible replacement for dental amalgam 173
Stebner. Role and evaluation of gold foil, silicate cement and acrylic resins in operative dentistry 354
Suffert. Restrictions to the hygroscopic and setting expansion of dental investments determined by different types of casting rings. (Behavior of hygroscopic expansion in the water-added technic) 171

THERAPEUTICS

Arai. Experimental studies on the changes in the calcified tissues and kidneys after the long term administration of sodium fluoride 103
Benagiano. Experimental and clinical investigations of the relation between fluoride intake and thyroid function 74
Blinderman. Control of edema, pain and trismus in oral surgery with an oral antihistamine 73
Bohn. Clinical picture and pathogenesis of toxic symptoms caused by penicillin, penicillin ester and tetracycline 442
Brunthaler. Antibiotic for oral and topical application 689
Cheraskin. Principles in the use of antibiotic agents in dental practice 170
Colton. Polyantibiotic dental cement as a cavity sterilant. In vitro and in vivo report 313
Fernández Cabrera. Modern detergents in dentifrices: their biologic action in dental prophylaxis 169
Garcia Martinez. Placental stimulins in stomatology 454
Goulding. Sedation of children as outpatients for dental operations under general anesthesia: trial of methylpentynol, butobarbitone and chlorpromazine 689
Guhrke. Vitamin F in the local treatment of periodontal disease 287
Gurkan. Histologic research on dental fluorosis in Isparta, Turkey 102
Hartwig. Stability of stored penicillin preparations 443
Helbig. Applicability of hyaluronidase preparation in dental practice 599
Lane. Review of current opinion on the hazards of indiscriminate antibiotic therapy in dental practice 287
Paul. Use of trypsin intramuscularly as (a) prophylactic measure to control inflammation following root resection: a preliminary report 216
Pawlowska. Strontium chloride: its importance in caries prevention 217
Perkins. Prescription writing in dentistry 288
Poole. Effect of tolazoline hydrochloride on tic douloureux 599
Schüler. Treatment with hydrogen peroxide 30 per cent 169
Siegenthaler. Clinical experiences with "Romicil," a new antibiotic 454
Stawinski. Antibiotics, especially Terramycin, in the treatment of periapical infections 442
Stenderup. Moniliasis treated with Pentamidine 75
Venelli. Penicillin V—phenoxymethyl penicillin—in dental practice 288
Wellensiek. Therapeutic evaluation of bio-flavonoids in periodontal disease 170
Young. Chlorpromazine hydrochloride as an antinauseant and tranquilizing agent—a preliminary report 75; Some new drugs in dentistry 74

ART

See Professional activities—art

AUXILIARY GROUPS

See Professional activities—auxiliary groups

B

BACTERIOLOGY

See Basic science—bacteriology

BASIC SCIENCE

ANATOMY

Falin. Morphology of tooth receptors 495
Goose. Variability of the form of maxillary permanent incisors 398
Hromatka. Investigations of denture supporting bone surfaces of the mandible 140
Jorgensen. Deciduous dentition: a descriptive and comparative anatomical study 496
Kallay. Carabelli cusp and its interpretation 670
Moss. Progress review: anatomy 496
Orban. Epithelial attachment (the attached epithelial cuff) 303
Riethe. Anatomic and functional deviations in dentition and jaw development of a chimpanzee skull 303

ANTHROPOLOGY

Beltrami. Teeth of animals 94
Catsberg. Position of the mental foramen in man 143
Clement. Caries in the South Africa ape-man; some examples of undoubted pathological authenticity believed to be 800,000 years old 143

Dascoulis. Caries frequency in Greece from prehistoric periods to modern times 493
Davies. Degree of attrition of the deciduous teeth and first permanent molars of primitive and urbanised Greenland natives 43
de Terra. Discovery of remains of early man 664
Estrada. Contribution to the dental study of the Katia Indians 662
Ludwig. Mandibular second premolars: morphologic variation and inheritance 529
Man's teeth 42
Obando. Pre-Columbia endemic dental fluorosis 665
Picton. Calculus, wear, and alveolar bone loss in the jaws of sixth-century Jutes 723
Straus. Jaw of Gigantopithecus 664
Taviani. Morphologic examinations of cusps and roots of human teeth 492
Wen-Chung. New material on man's origins 304

BACTERIOLOGY

Frostell. Studies on the acid production and the cell viability of oral acidogenic microorganisms 724
Hampp. Investigation of the nutritional requirements of the oral spirochetes 669
Hayward. Comparison of lactobacillus species from human saliva with those from other natural sources 725
Lammers. Influence of endogenous factors on the microbiologic equilibrium in the oral cavity 49
Pigman. Action of individual bacterial strains on human teeth under in vitro conditions 669
Santo. Substances essential for life and their laws: the problem of nutrition 724
Sharp. Host-parasite iteraction in relation to dental disease 304
Shiota. Effect of sodium fluoride on oral lactobacilli isolated from the rat 401
Silcox. Dentist and focal infection 402
Warnecke. Bacteriology and epidemiology of Staphylococci resistant to treatment 305

BIOCHEMISTRY

Bauer. Effect of sodium N-lauroyl sarcosinate and of sodium dehydroacetate on the enzymes of the gastrointestinal tract 398
Baume. Distoclusion and brachycephalism produced in rats by endocrinological experiments 360
Eggers Lura. Oxygen absorption of salivary microflora and its relation to caries 363
Hafer. Influence of metabolism on the chemical properties of saliva 364
Introzzi. Studies on platelet physiopathology 362
Irving. Influence of calcium content on effect of fluoride in development of predentin and dentin 364; Influence of diets containing fats with highly unsaturated fatty acids upon the maxillary incisor teeth of rats 527
Kirsch. Cholesterol blood level after cystectomy in the region of the jaws 44
Obando. Pre-Columbian endemic dental fluorosis 665
Sullivan. Studies of the hydrogen ion concentration in the mouth. II. The effects of rinsing and of beverages on hydrogen ion concentration 668
Torell. Determination of iron in dental enamel 527
Weddle. Metabolism of different fluorides in the rat. I. Comparisons between sodium fluoride, sodium silicofluoride and stannous fluoride 725
Wiel. Relations existing between the alkaline phosphatase in blood serum and the phosphatase in cysts of the jaws 363

BIOLOGY

Mühlemann. Periodic phenomena in dental research 142
Sáenz de la Calzada. Biological aspects of the buccodental organ 302
Sáenz de la Calzada. Dental calcification in intrauterine life: contribution to study 497
Tonge. Basic aspects of mouth development 632
Wendt. Genetic effects of iontophoresis in man 497

BIOPHYSICS

Alm. Radiation with electromagnetic waves and microwaves in dental practice 43
Beck. Investigation of tooth function during mastication 233
Rozeik. Separation of enamel from dentin in human and rat teeth 366

CHEMISTRY

Weddle. Metabolism of different fluorides in the rat. I. Comparisons between sodium fluoride, sodium silicofluoride and stannous fluoride 725

HISTOLOGY

Bhaskar. Experimental obstructive adenitis in the mouse 399
Bhussry. Studies on mottled enamel 722; Surface changes in enamel 722
Blackwood. Intermediate cementum 720
Burstone. Esterase activity of developing bones and teeth 666
Cabrini. Histochemical study of "PAS" positive, metachromatic and basophilic substances in periodontal tissues 300
Calonius. Cornification of the alveolar epithelium after tooth extraction and use of a denture 723
Csepura. Epithelial attachment at the neck of retained teeth and on teeth in follicular cysts 93
Dalerup. Evaluation of dental caries in rats; microscopic studies of nondecalcified sections of molars 49
Engfeldt. Studies on mineralized dental tissues. IX. A microradiographic study of the mineralization of developing enamel 401; Studies on mineralized dental tissues. X. A microradiographic, autoradiographic and histochemical investigation on dental hard tissues in dogs with experimentally produced vitamin D deficiency 528
Fusayama. Directions of the enamel rods in central longitudinal sections throughout all kinds of permanent teeth 299
Green. Microscopic investigation of root canal diameters 666
Hals. Natal and neonatal teeth: histologic investigations in two brothers 722
Hüttner. Tooth mobility in rhesus monkeys 399
Kramer. Isolation and examination of odontoblasts in the fresh unfixed state 301
Lenz. Electron microscopic investigation of initial caries of the enamel 499
Mandel. Histochemistry of calculus formation 666
Mori. Histochemical study on the polysacharide in gingiva in patients with periodontal disease 300
Mosley. X-ray microscopy of thin tissue sections 301
Neujoks. Topical histochemical examinations of tooth organs: the effect of alkaline and acid phosphatases and of reducing compounds on the mineralization of tooth substances, resorption of deciduous teeth and dental caries 499
Nickel. Electron microscopic and chemical examinations of isolable parts of the odontoblastic processes in human teeth 48
Rosenberg. Pattern of stippling on human gingivae 528
Stella. Mast cells in human gingiva 142
Swerdlow. Human pulpal reactions following 20,000 rpm preparations with and without coolants 631
Symons. Development of the fibres of the dentine matrix 400
Takuma. Electron microscopy of dental tissues by use of the replica method 399
Webster. Organic constituents of enamel 48
Zach. Effect of ultrasonic operative procedures on the developing dentition 631

HISTOPATHOLOGY

Calle. Histopathologic changes of the oral mucosa during tooth eruption 236

METALLURGY

Kuczynski. Transformations in disordered gold-copper alloys 104

PATHOLOGY

Abdalla. Oral conditions in lepers 728
Afendulis. Dental focal infection and preventive dentistry 47
Alexander. Accessory submaxillary gland 627
Arai. Experimental studies on the changes in the calcified tissues and kidneys after the long term administration of sodium fluoride 103
Arneri. Facioplasty in instances of malignant tumors 367
Baker. Bilateral mixed tumors of the parotid glands 239
Balogh. Tuberculosis in the oral cavity 101
Beatty. Report of a case of an unusual embryologic defect of the face 101
Beerman. Syphilis: review of the recent literature 103
Benagiano. Experimental and clinical investigations of the relation between fluoride intake and thyroid function 74
Berg. Agranulocytosis after insertion of tooth fillings containing arsenic 100
Bergman. Studies on mineralized dental tissues. VIII. Histologic and microradiographic investigation of hereditary opalescent dentine 366

Biederman. Incidence and etiology of tooth ankylosis 522
Brodey. Diagnosis and treatment of pemphigus 630
Bruzzi. Migration of lower cuspids to positions mesial to the lateral incisors 731
Burman. Molluscum pseudocarcinomatosum 98
Casas Romeu. Maxillary changes in Crouzon's disease 526
Cassie. Penetrating ulcer of the tongue 518
Chipps. Scleroderma affecting the masticatory apparatus 45
Cole. Problems and obligations in the treatment of cancer 145
Cooke. Leucoplakia buccalis and oral epithelial naevi. A clinical and histological study 144; Paget's disease of the jaws: fifteen cases. Cartwright Prize Essay of the Royal College of Surgeons of England 521
Darling. Some observations on amelogenesis imperfecta and calcification of the dental enamel 525
de Sousa. Halitosis: a review 148
Doig. Cleft palate following cortisone therapy in early pregnancy 310
Dyk. Pathogenesis of aerophagy 726
Eufinger. Facial furuncles and their treatment 501
Foley. Serum hepatitis following dental procedures: a presentation of 15 cases, including three fatalities 311
Frank. Progress in oral pathology (1952-1955) 671
Grahnéri. Hypodontia in the permanent dentition 308
Gurkan. Histologic research on dental fluorosis in Isparta, Turkey 102
Hankey. Affections of the temporomandibular joint 672
Hardisty. Christmas disease in a woman 730
Haase. Accidents and thrombosis 728
Herrmann. Treatment of dental focal infection 237
Hobson. Teeth, Streptococcus viridans, and subacute bacterial endocarditis 403
Hoffmann. Diagnosis of the condition of the tongue in dental practice 46
Intelligence and cleft palate 624
Kappesser. Foreign body granuloma of the tongue caused by an embedded deciduous tooth: report of case 501
Kirsch. Differential diagnosis of vague headaches and facial pains: disturbances in the function of both jaws 97
Klock. Treatment of radiation necrosis of the soft tissues of the oral cavity: a report of two cases 621
Kovás. Monocytic diseases as sequela of dental focal infection 97
Kwapis. Erythema multiforme exudativum 625
Lautenbach. Alterations in the blood condition accompanying dental absecesses 626; Examinations and re-examinations of Bottyan's antigen test in dental focal infection 729
Lelkes. Moniliasis in the oral cavity 307
Levin. Oral lichen planus and leukoplakia: differential diagnosis and treatment 623; Oral manifestations and treatment of pemphigus vegetans 100
Lindemann. Endothelial myeloma 307
Lorenz. Cervicofacial actinomycotic mixed infection; report of 120 cases 629
Macdonald. Mixed infections of the oral cavity 308
Marques. Rare anomaly—triple dental fusion 147
Miklós. Differential diagnosis and treatment of mycosis fungoides of the oral mucosa 98
Miura. Fundamental studies on the antral floor 630
Mohnicke. Diseases of the teeth and their supporting tissues in diabetic patients 629
Nadler. Bruxism, a classification: critical review 626
Ott. Importance of dental care for military fliers 524
Palmer. Oral mucous membrane manifestations of systemic disease 310
Pastinszky. Pathology and differential diagnosis of macrocheilia 515
Paul. Gingivodental lesions and pregnancy 46
Paymaster. Cancer of the buccal mucosa: a clinical study of 650 cases in an Indian hnosptial 520
Port. Neurologic and prosthetic effects of a shrapnel fragment remaining in the region of the upper jaw 44
Primary tuberculosis of the mouth 99
Raison. Oral and dental manifestations in mongolism 729
Rauch. Physiology and pathology of the salivary glands 236
Recurrent painful aphthae 727
Reinefeld. Some considerations on fluorosis and hyperthyroidism: presentation of a case 239
Rubin. Secretory sialography in diseases of the major salivary glands 518
Russ. Oral leukoplakia: review of the literature 624
Ryan. Radiological manifestations of ectopic salivary adenomas showing the cylindroma pattern 523
Sage. Recent advances in oral cancer 146
Sallay. Periodontal findings in cyanotic individuals 404
Schapira. Anodontia and aplasia: report of two clinical cases 727
Schwartz. Symptoms associated with the temporomandibular joint; a study of 491 cases 730
Selye. Endotheliomyelosis—an experimental model of the "focal syndrome" 628
Shovelton. Surgical emphysema as a complication of dental operations 525
Silcox. Nontumorous lesions of the mouth 519
Skolnik. Malignant tumors of the tongue, the floor of the mouth and the pharynx 238
Stelgens. Etiology, pathogenesis and treatment of erythredema polyneuropathy 671
Strean. Stress is an etiologic factor in the development of cleft palate 147
Svedja. Congenital epulis: report of case 522
Torrielli. Rhabdomyoma of the alveolar and buccal mucosa: report of case 623
Ulrich. Diabetes mellitus and dental treatment 726
Veng-Christensen. Mandibular adamantinoma 523
Via. Cerebral damage dated by faults in dental enamel 629
von Verschuer. Cancer in twins 309
Wolfe. Parotid swelling, alcoholism and cirrhosis 622
Wulf. Dermatologic treatment of cheilitis 404
Zarka. Gingival tumors of pregnancy; review of "pregnancy tumors" and a report of two cases 648

PHARMACOLOGY

Vasil. Our antibioitic age 95

PHYSICS

Rigas. Some effects of coolants on the mechanism of cutting with dental burs 494

PHYSIOLOGY

Belonoschkin. Male climacteric? 306
Boyd. Physiologic considerations of dentine 41
Cecconi. Gerontology and dentistry 500
de Jonge. Geminate tooth formation: schizodontia and synodontia 41
Hayashi. Studies on the influence of dental treatment on the volume of the spleen 397
Hensel. Pain in human teeth caused by temperature variations and heat conduction 40
Hoerman. Lysozyme: its characteristics in human parotid and submaxillolingual saliva 306
Kerr. Talking about saliva 498
Likins. Urinary excretion of fluoride following defluoridation of a water supply 40
McDaniel. Variations in nerve distributions of the maxillary teeth 396
Posselt. Hinge opening axis of the mandible 42
Sonesson. Temporomandibular joint during lateral movement of the mandible: a tomographical investigation on the living person 667
Storey. Bone changes associated with tooth movement: a histological study of the effect of force in the rabbit, guinea pig and rat 39
Suzuki. Studies on the investigation of physiological factors for the growth of tooth. Part I. On the normal growth of tooth of the rabbit 40
Waerhaug. Tissue reaction around acrylic root tips 498

PSYCHOLOGY

Arnold-Ceranke. Facial deformity and inferiority complex 235
Baltrusch. Personality and disease: the role of emotional factors 148
Brüne. Bioclimatic disturbances in dental patients 402
Clauser. Psychologic effect of drugs 95
Euler. Training in psychology for practicing dentists 235
Gonçalves. Hypnosis. Its miraculous aspect and possible injuries 234
Heinrich. Loss of teeth as a symbol of death: periodontosis as psychic trauma 96
January. Psychosomatics in orthodontics 26
Kominik. Psychogenic influences on the electrosensitivity of vital pulps 365
Lerman. Dentistry and hypnodontics 234
Lewis. Unconscious castrative significance of tooth extraction 667
Lezovic. Hypnosis in dentistry 426

Mravlag. Alleviation of pain in dental treatment 149
Parker. Hypnosis in dentistry 736
Roth. Xerostomia and bruxism 494
Savitt. Teeth, trauma and the dentist-patient relationship 365

BETEL CHEWING
Müller. Betel chewing in India 123

LIST OF PERIODICALS ABSTRACTED

The periodicals from which abstracts were made and printed in Volume 2 of *Dental Abstracts* are listed below in the alphabetical order of their abbreviations. In addition the full title and address of each periodical are given. Journals which have discontinued publication are entered and marked "Discontinued."

Lists of all dental journals published in the United States and of dental journals published outside the United States and currently received in the Bureau of Library and Indexing Service of the American Dental Association are available free from that Bureau.

A.M.A.Arch.Dermat. A.M.A. Archives of Dermatology. American Medical Association, 535 N. Dearborn St., Chicago 10, Ill.

Acad.odont. Academia Odontologica. Edificio Banco Comercial Antioqueno, octavo piso No. 805 Medellin, Colombia.
